

MANAGED SECURITY:

Protecting your data and
your business

Is your business safe from the following?

- 🔒 Data theft
- 🔒 Virus attacks
- 🔒 Hacking
- 🔒 Confidentiality breach
- 🔒 Misuse of information
- 🔒 Email attacks
- 🔒 Information leaks

We keep you and your data protected.....

SYSTEMS MONITORING

- Anti-virus
- Systems scanning
- Early warning signs of threats

ADMINISTRATION

- Email protection
- Malware prevention
- Software security updates

CONSULTING

- Audits and strategic advice
- Guidance and policy
- Strategic security improvements

.....to give you peace of mind

Before

“I had no idea how vulnerable my systems were”

“Our IT team was having to spend too long trying to update our security and deal with unwanted threats”

“As our business grows and we become more profitable, I’m worried about what might happen if someone steals our data”

After

“Regular reports let me know where I need to invest in additional security”

“Automatic updates give us the latest security protection, which means we can concentrate on growth and profit”

“Strategic advice, combined with the latest policies, have helped us rigorously test our business against data theft and strengthen our systems”

How does it work?

- 🔒 Quick to get started and view current risks and issues
- 🔒 Keeps your security systems up to date
- 🔒 One to one consultancy advice for a strategic approach to your security
- 🔒 Free trials and demos available
- 🔒 Easy to use and no experience required
- 🔒 Affordable – just a small, monthly fee
- 🔒 Developed to meet the requirements of small and medium sized businesses
